

MOVING BEYOND NAME AND NEED

See the whole child. **Remove** barriers. **Unlock** potential.

NAME

Every child deserves to be seen. Acknowledge and recognize the individual—their identity, dignity, and worth. **This is the starting point** for equity and connection.

NEED

Support doesn't mean weakness—it means access. Identify what supports, scaffolds, or environments each student requires to succeed. **"Need" is a bridge to opportunity, not a label of deficit.**

NARRATIVE

Every student has a story that matters. Understand the student's lived experience. Embrace their cultural background, personal history, and aspirations. **This is where empathy meets insight.**

NOVELTY

Growth comes from fresh ideas and flexibility. Encourage innovation, creativity, and personalized learning. Celebrate uniqueness and adaptability. **This pushes us to keep reimagining how we serve students—not just follow routines.**
